To his Excellency Thos. Bragg, Govenor

of the State of North Carolina SIR :- In compliance with the resolution of the Legislature, and in accordance with your wishes, I have visited the works on the Cape Fear and Deep River," and have now the honor in conformity to the instructions embraced in the resolution conferring on me the honorable and responsible duty, to report "the present condition of said works and the practicability of completing the same at an early day," and

The works on the Care Fear e mprise thirteen dams and fourteen locks, and on Deep River six dams and eight locks; these works consist of timber cribs filled with stone. Dams thus constructed are considered permanent and durable works; their duration however is dependent upon a constant and uniform condition of humidity around the timbers .-There is now a dam in good repair on Haw river, at Butler's ford, now known as Ruffin's ford, which was built by Judge Murphy in 1806; this dam is on the crib plan, and is built of hickory logs, barked. But the best practical evidence I have seen of the permanency of such works is recorded by Capt. Crozet, chief engineer of the State of Virginia, in his report to the board of public works made in 1812, on the condition of the Appeniattox improvement. It is therein stated (see 27th annual report of the board of public works consider, therefore, the dams which chiefly constitute the works on Cape Fear and Deep river as permanent works. The locks, guard walls and abutments, however, which are also built of timber cribs filled with stone, are much exposed to decay, and will not last more than six or seven years. If these were built of stone the improvement would be caual in durability and permanency to any work of a similar

character in the country.

I now proceed to present the condition of the works on the Cape Fear and Deep river, commencing with those on the Cape Fear and at the lower end of the improvement:

1. The Cross Creek Dam and Lock.—This work was completed in November last; the foundation is soft sand stone, but the dam is constructed with a lower slope which breaks the fall and carries the water off from the base and Owing to a rise in the river, which overteek the contractor as the work was drawing to a clese, the sheet piling on the back was omitted for a distance of about 40 feet in length. The dam needs additional gravelling and the material with which the cribs are filled is not of a description to remove all doubts of its durability; it should be carefully examined, and it found, as I fear it has, yielded to the action of the water, it will be necessary to renew it. The wall of the lock on the land side has somewhat settled. The wickets are worked on an imperfect plan, by chains winding around windlasses. When I visited the work one of the chains attached to one of the leaves of the head gate was broken; a faithful record of the " present condition of the work. I passed in a steamboat safely and expeditiously through all the other locks from Lockville to Fayetteville, and from Favetteville back to Lockville.

high water through the lock at this dam, as well as at all the other dams, it will be necessary to increase the height

at the head of the lock, there will be required \$12,000. 2. Jones' Falls, Silver Run and Red Rock Dams and for fresh conquests. der, but the lock is much decayed, and requires renewal. For gravelling the dam, rebuilding the lock, and raising

the guard walls and pier-head, \$10,000. 6. Sharpfield Dam and Lock .- This dam is also in good Turkey and Persia, which threatend to grow into an order, and requires notting more than gravelling; the lock is much decayed, and the entrance from the pond is dangerous. For gravelling the dam, repairing the lock, raising the

der, the locks are more or less in a state of decay; some, with slight repairs, will last four or five years; others will require heavy repairs during the present year These works river, about two miles above its confluence with Haw river. For gravelling the dam, repairing the locks, raising the guard walls, building guard banks, and constructing pierheads, \$64,000. We come now to the works on Deep river.

1. The Dam and Lockat Lockville.-The dam and guard lock at this place are in good order; between the guard and outlet lock there is a canal about half a mile in length. The outlet lock is designed to have a lift of 232 feet, to be built of rous regions; for it is not on the force of arms, nor company, it is represented as being "about one-fourth done." The work is so badly executed, it will be necessary to take it down. I would recommend two cut-stone locks at this place, with the lift divided between them. For gravelling the dam, increasing the height of the lock,

is entirely decayed.

guard walls, and building pier-head, \$18,000.
3. Clegg's Dam and Lock .-- Are in good repair. I would advise the raising of this dam seven feet, so as to submerge advise the raising of this dam seven feet, so as to submerge farish's dam, which is on a bad location, very difficult of entrance both above and below, and with banks that would place in its improducte neighborhood. entrance both above and below, and with banks that would place in its immediate neighborhood. be difficult to secure. It is so obviously the cheapest plan, adoption, I shall omit Farish's dam altogether, in the estimate. The dam raised, as is proposed, will make a pond rat, the attitude and language of the Russian governsixteen miles in length, extending to the gulf dam, nearly ment have been dictated by the same principles .-

> > WARSAW BIGH SCHOOL.

S. J. FAISON, A. B., Superintendent. TIHIS SCHOOL commences its Second Session on Monday, the 19th of January, 1857. The department in Agricultural Chemistry is still continued, under the charge Prof. R. H. Drysdale, his laboratory being now replete For cleaning the teeth it has been considered far superior with all necessary chemical apparatus. A Gymnasium has Molasses, per gallon. its, the cordial approbation of every patron. A company of Cadets is also in process of formation, in which each individual of the company will be drilled for one hour during and has no equal in rendering the beard soft, emolient and each day; these new and valuable features being projected Warsaw is healthfully located on the Wilmington and

Weldon Railroad, at its intersection with the Fayetteville moral, physical and intellectual, of their children and wards. | cording to quality. Terms per session of twenty weeks, as follows:

Incidental Expenses for this Department 2 50 No deductions from the time of entrance will be made, except in cases of protracted sickness; children being admitted for a whole or a half session as desirable. Prof. Drysdale will continue to examine soils, marls, &c., as heretofore. Board may be had in good families at from \$8 to \$10 per

month. Six or eight can be accommodated by the Superintendent.

D. J. MIDDLETON, Jan. 16th-20-4t Secretary of Board of Trustees. LOOK UP YE DISCONSOLATE. NY PERSON who may be suffering with any thing of a A Cancerous nature, will find me at my residence, twelve miles west of Society Hill, Darlington, South Carolina. 1

I do not effect a cure, my services and board will be gratuitously bestowed. I will attend to any call until the 15th of June, thence will decline until the 15th September; my object is to secure safety to the patient. I reserve the second week in March, which time I may be found at the Rock

AVER'S CHERRY PECIORAL. FOR THE rapid cure of Coughs, Colds, Hoarseness, Bronchitis, Whooping Cough, Asthma and Consumption, is universally known as the best remedy ever yet discovered for every variety of Pulmonary disease. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pul-Proofs of the surprising efficacy of the Cherry Pectoral need not be given to the Accrican people—they having living proofs in every neighborhood. But those who wish to read the statements of those whose health has been restored, and whose lives have been saved by its use, will find them in my whose lives have been saved by its use, will find them in my whose lives have been saved by its use, will find them in my and sates made this morning at highest prices. The receipts for several weeks past have been meagre, being but little more than sufficient for distilling purposes, and only a small quantity has been shipped. The operations for the past week comprise 6,493 bbls. viz:

Whose lives have been saved by its use, will find them in my as accasing at 48. Sufficient was accasing at 48. Sufficient furnish gratis to every one.

Spirits Turpentine—As may be seen from our table below prices advanced on Thursday best of the following:

16 horse Tobacca World County that as low prices and ones them may be found the following: low, prices advanced on Thursday last to 49 cents per gal lon, at which the market since has ruled steady. foreig: advices received continue quite favorable, which, together with the light stock held in other markets, causes holders generally to be firm in asking higher figures. The sales for the week ended this morning have been smaller than those of the previous one, owing to the light stock offering, and foot up only 2,115 bbls., as fellows: Thursday..... 410 " 49 cents per gallon. Friday..... 350 " 49 " "

Monday 300 " Tuesday.....1,000 " 49 " " " Wednesday 55 " Rosin-Common has ruled quiet for the week, with limited transactions. There were sales on Thursday last of 3,000 bbls., and Saturday 1,500 do. at \$1 10 for large size bbls,; since there has been nothing doing of note, and the market closes inactive. In No. I there is very little doing, owing mainly to the small quantity on market, as there is a fair demand existing. Sales for the week of 800 a 1,000 bbls. at \$2 871 to \$3 75 per bbl., as as in quality. TAR-There is no change to report in the price of this ar-

49 " " "

ticle. At present there is a moderate demand from shippers, and parcels generally sell on arrival at quotation The receipts and sales during the week reach only 526 bbls. at \$1 50 per bbl. BEEF CATTLE-Continue to arrive sparingly, and butchers have only a molerate supply on hand. One or two

per lb., as in quality; -for an extra article of stall fatted a higher price could be had. COFFEE-In this article we have no alteration to note. -The stock in store is fully fair, and with a limited demand the sales have been confined to small parcels. See table. Site, one half down, the rest on the delivery of the Deed. Every I Virginia, to be divided amongst 10,200 subscriptions, and only a small quantity outling the 13th of April, 1857. Subscriptions only ten dollars each; advices received here on Friday last, caused considerations on the delivery of the Deed. Every ble firmness, and one or two parcels changed hands at 12 Jaconet Flouncings in great variety.

Jan 9. JEDRICK & RYAN. subscriber will get a Euilding Lot or a Farm, ranging in value from \$10 to \$25 000. These Farms and Lots are sold ever, it has ruled exceedingly quiet, owing to the difference ever, it has ruled exceedingly quiet, owing to the difference so cheap to induce settlements, a sufficient number being re- in the views of buyers and sellers, and we learn of only one CAROLINA SADDLE AND HARNESS ESTAB-

ure is now offered for latter quality, but sellers are holding cer Association," is now forming, and will commence a set-tlement in the spring. Ample security will be given for the and sales have been made from store at 80 a 85 cents per bushel, as in quantity. EMPTY BARYELS-For Spirits Turpentine barrels the mar-

receipts have caused the stock on market to become materially reduced, and a good article generally commands our highest quotations. Small sales have been made at figures quoted I form the citizens of Wilmington and surrounding counin our table, according to quality.

FEATHERS—Are exceedingly scarce and wanted at 50 a 55 cents per lb., as in quality. [We were in error in our last in quoting at 40 a 45 cents, as they are brisk at above fig-

FISH-There is little or nothing doing, and we would refer FLOUR-Has ruled quiet for the week just en ed. The receipts per railroad have been pretty fair, and there is now aparatus,) and ground on Southwell's Patent Saw Grinding a moderate stock on market. Quotations remain without change, with small sales of State brands from store at \$6 25 for cross, \$6 75 for fine, \$7 25 for superfine, and \$7 75 per bbl. for family ;—holders generally are firm in asking above figures. GAIN-In CORN we have no material alteration to make

No. 5, Market street, near the Wharf, where he will keep operate at anything over 70 cents, which could be obtained every description of SADDLES, BaiDLES, HARNESS, WHIPS & TRUNKS Every variety of Ladies and Gentlemen's riding Saddles, Fine Sole Leather TRUNKS, and every thing in his line. Having extensive facilities, he will keep constantly on hand, the most splendid and extensive assortment of Saddlery goods in the State, all of which will be sold at New York prices.

N. B. Repairing of Harness and Trunks done by the best workmen, and all orders for Harness executed with prompt-Schr Southern Belle, O'Brien, for New York, by J H workmen, and all orders for Harness executed with promptness and despatch. MATHEW A. WILSON,
is a fair supply of clean on market, and as the demand is confined almost exclusively to retailers, we have no transac-

and wall as at eliterated subsect to select the figure of the subsect to the subs

article, but owing to the limited receipts, but small sales have taken place. One lot of 1,000 bushels sold since our last at \$1 45 per bushel for red ; we quote nominally at \$1 55 for white.

HAY-In this article we have nothing new to notice. No receipts for two or three weeks past, and consequently we have nothing in the way of sales to report. There is a full stock on market, with little or no demand existing, and we refer to our table for quotations from store and wharf.

Lime—Is in full stock, and rules quiet. We quote cargo

price at 90 cents, and from store at \$1 35 per cask, in quantities to suit. LUMBER-River-No receipts for one or two weeks, and we note a fair demand. See table for last sales. Molasses-The quantity of old crop Cuba on market has been nearly or quite all worked off; we quote at 45 cents, in hhds. A cargo of new crop (149 hhds. and 14 bbls.) was

received on Tuesday from Cardenas, but no sales of consequence have taken place; held at 46 cents per gallon from PEA NUTS-Continue to be brought in sparingly, and the market has ruled very dull since our last. We quote small sales from carts and wagons at 90 cents a \$1 12h per bushel, according to quality. POTATOES-The market is pretty well supplied with Irish.

and at present we note a limited demand. We quote from store at \$3 a \$1 per bbl., as in quality. Sweet are in demand, and are brought in quite sparingly; bring from 70 to 80 cents per bushel Provisions-In N. C. cured Bacon we have but few transactions to notice. Several parcels of new have been brought to market, and owing to the limited demand from retailers it rules exceedingly dull. One small lot (1,000 lbs.) sold on Tuesday from store at 12½ cents for heg round, 90 days; we quote at 12 a 12½ cents per lb, with few buyers. We reduce rates a shade on hams, and quote at 13 a 14 cents. See table for prices of sides and shoulders. In Western cured there is nothing of consequence doing, with a moderate stock in first hands. We quote from store at 74 a 9 cents for shoulders, and 9h a 10 cents per 1b. for sides, as in quality. - LARD-N. C. make has been brought in more freely

ty. Fresh is in demand, and is brought to market sparingly; sells quick from carts and wagons at 9 a 10 cents per lb., as in quality.
SALT-The market rules very dull for both Alum and Liverpool, and nothing done during the week except in the retail way; market fairly supplied with both descriptions. See table for cargo and store rates. STAVES AND HEADING-No receipts of either for some

time past, and we note some demand. See table for last SHINGLES-Continue to rule dull, and we note sales of only a few small boat loads of Common at \$2 per M. Sugar-Market very peorly upplied, and prices rule exceedingly high. See table

TIMBER-Has been brought in rather more freely during the past week, and with a limited demand from millers, some 15 a 20 rafts remain unsold. Several rafts have changed hands at prices ranging within classified figures. See table. FREIGHTS-We have no charge to make on our quotations of last week. Produce has come in slowly, and quite

a number of vessels have arrived since our last, several of which have not yet been taken up We refer to our table for last rates paid constwise. CHARLSTON, Jan. 13 .- Cotton .- Very little was done in this article to day. The market was depressed, but we have no quotable decline to notice. The sales were limited

to some 417 bales at extrems ranging from 111 to 12 ie. BALTIMORE, Jan 13 .- Howard street and Ohio floor are offered freely at \$6 37, City Mills 5 50. Wheat is better. Corn 60 to 621.

NEW YORK, Jan. 13th .- Cotton has a declining tendency, sales to-day of 800 bales. Flour is steady, sales of 9,000 bbls, straight State at 6 25 a \$6 40, Southern at 7a\$7 25. Wheat is boyant, sales of 56,000 bushels, white at 1 70a\$1-78, and red at 1 53 a 1 61. Corn is firm, sales of 10,500 bushels, Southern mixed at 73 cents, and yellow at 75 cents. Pork steady for new re-packed Chicago. Lard is dull sales at 122 cents. Whisky is upward, sales at 262 cents for Chic. Coffee is firm, sales at 101 cents for Rio. Sugar buoyant at an advance of fe, 10 cents for Havana, 9 a 10 cents for Cuba. Molasses is firm, New Orleans at 80 cats. Spirits turpentine is firm at 53 cents. Rosin dull, common at 16% a\$165, delivered. Rice quiet at former quotations. Freights are
